digital-mile.at

We are an association of IT companies, a community of innovative minds, spanning a mile from the Danube promenade to the industrial zone in Linz. A place where over 110 highly innovative digitalization companies with more than 4,500 employees bring their ideas and visions to life. We are a community that inspires people around the world to collaborate with us in shaping the future.

LEND A HAND:

Celebrating for a good cause

Raising funds for „Ukraine Help"

The Kiwanis Club is deeply committed to supporting people in Ukraine, providing vital aid through donations where it is needed most. A current focus of these efforts is supporting pediatric oncology, helping ensure that children with cancer receive the care and resources they urgently need.While important milestones have already been achieved, the needs on the ground remain significant – which is why this commitment continues with full dedication.

Together, we can make an even greater impact. Your support is truly invaluable.

Thanks!

Kiwanis
