DIGITAL MILE summer vacation program 2026

31.08-04.09.2026 **DiMi-LEGOweek senior** MIC	**07.-11.09.2026** **DiMi-ACTIVITY week 7** Kinderfreundehaus Hartmayrgut	**07.-11.09.2026** **DiMi-OCG-Sommercamp** HTL Leonding	**07.-11.09.2026** **DiMi-LEGOweek junior** MIC
LEGO Mindstorms – Vehicle engineers of the future At this summer camp, children plan and build various vehicles using LEGO Mindstorms. They then simulate autonomous driving. In the second half of the week, the children develop their own individually designed and programmed vehicles that use intelligent sensors. **Cooperation with** RoboManiac	Creative handicrafts and painting, active indoor and outdoor games, excursions in Linz, incl. KEBA day. The program is individually tailored to the interests and age of the children and is flexible. **Cooperation with** KEBA & Die Kinderfreunde	Introduction to Python and programming basics, Exciting projects with virtual robots and AI applications. Developing your own programmes, Promoting creative problem solving, logical thinking and teamwork. **Cooperation with** Österreichische Computer Gesellschaft (OCG)	**LEGO WeDo – On your marks, get set, go!** During the "Electricity Workshop" camp week, children discover how electricity is generated and what it is used for. Through experiments, games and self-built robots, they learn about the interplay between nature and technology. They can try out their own ideas and develop small constructions. **Cooperation with** RoboManiac
